

Meet our Specials Teachers & Office Staff!!

What is a “Specials” Class?

Our specials classes are exactly that...special!

These classes are an extension of learning that focus on a special area of development. This year our specials classes include Music, Chapel, Science, Gross Motor Lab.

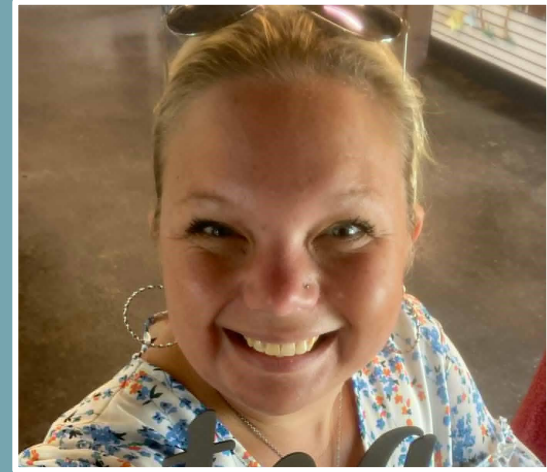

Children will go to each special weekly.

Chapel with Ms. Stephanie and Ms. Melanie

Ms. Melanie

We are excited to begin our Bible lessons with your children! Each month they will learn a Bible verse and a few stories to go along with it. We want the Bible to come alive for the children! They will learn that they are truly God's children, and He loves them unconditionally.

Ms. Stephanie

Science with Mrs. Amy

Children will learn that Science is the study of everything that God has created!

All classes attend science each week where they are encouraged to observe, explore, and investigate the world around them. Hands-on activities build on the children's natural curiosity while helping them develop an understanding of how the world works.

Music with Mrs. Deborah

Mrs. Deborah loves sharing the gift of music with your kids! They always have so much fun moving to the music! During music Mrs. Deborah teaches our kids all about keeping a steady beat, helps develop an appreciation for classical musical, plays games that build gross and fine motor skills, and so much more!

Gross Motor with Mrs. Cara

Big Body play experiences are essential to a child's development. Each week, Mrs. Cara prepares fun and engaging movement activities that allow our children to move their bodies and strengthen their gross motor skills. Gross Motor Lab provides an exciting and supportive environment that helps our children grow physically, socially, and emotionally!

Meet the Bright Beginnings Administration
